

CITY OF AUBREY

107 S. MAIN STREET
AUBREY, TX 76227
(940) 440-9343

July 18, 2022

Dear City of Aubrey Water Customer,

On July 1, 2022, the City of Aubrey implemented Stage 1 of the City's Water Conservation and Emergency Water Demand Management Plan. The goal of Stage I water supply management measures was to achieve a voluntary ten (10) percent reduction in daily water demand. We were not successful in achieving the reduction. With the extreme heat and dry weather conditions, water demand has continued to place a heavier than normal load on pumping equipment. Effective immediately, the City of Aubrey is implementing Stage 2 "**mandatory**" water restrictions.

Under Stage 2 water restrictions:

- Only on **Sundays and Thursdays** between the hours of **8:00 p.m. and 10:00 a.m.** customers with a **street address ending in an even number** (0, 2, 4, 6 or 8) may:
 - irrigate landscaped areas with hose-end sprinklers or automatic irrigation systems.
 - use water for vehicle and equipment washing but must be done with a hand-held bucket or a hand-held hose equipped with a positive shutoff nozzle for quick rinses.
 - use water to fill, refill, or add to any indoor or outdoor swimming pools, wading pools, or Jacuzzi-type pools.
- Only on **Saturdays and Wednesdays** between the hours of **8:00 p.m. and 10:00 a.m.** customers with a **street address ending in an odd number** (1, 3, 5, 7 or 9) may:
 - irrigate landscaped areas with hose-end sprinklers or automatic irrigation systems.
 - use water for vehicle and equipment washing but must be done with a hand-held bucket or a hand-held hose equipped with a positive shutoff nozzle for quick rinses.
 - use water to fill, refill, or add to any indoor or outdoor swimming pools, wading pools, or Jacuzzi-type pools.
- **Water use outside of designated periods is prohibited.**
- The following uses of water are defined as nonessential and are **prohibited**:
 - Wash down of any sidewalks, walkways, driveways, parking lots, tennis courts, or other hard-surfaced areas.
 - Use of water to wash down buildings or structures for purposes other than immediate fire protection.
 - Use of water for dust control.
 - Flushing gutters or permitting water to run or accumulate in any gutter or street.
 - Failure to repair a controllable leak(s) within a reasonable period after having been given notice directing the repair of such leak(s).

Water customers shall practice water conservation and discontinue water use for nonessential purposes to ensure adequate water supply is available for our future. The goal established under Stage 2 water supply management measures is to achieve a twenty (20) percent reduction in daily water demand and to avoid further restrictions and mandates.

Any person who violates the City of Aubrey Water Conservation and Emergency Water Demand Management Plan is guilty of a misdemeanor and, upon conviction shall be punished by a fine for each day that one or more of the provisions of the plan are violated. We appreciate your assistance in helping to conserve water.

Sincerely,

Leanne Wilson
Director of Public Works and Development Services
